Machine Tool Work Holdings Clamping Systems

Our clamping systems automate and reduce the labor required for workpiece attachment and detachment on machine tools and assembly equipment.

Our extensive product lineup includes positioning components, valves, couplers, index tables, and more.

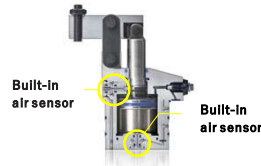

■ WORK HOLDING

Swing Clamp

CTM PAT.

Link Clamp

CLM PAT.

Expansion Clamp

CGC PAT.

■ POSITIONING

Pal Fix

CPK PAT.

Pallet Clamp

model **CPC**

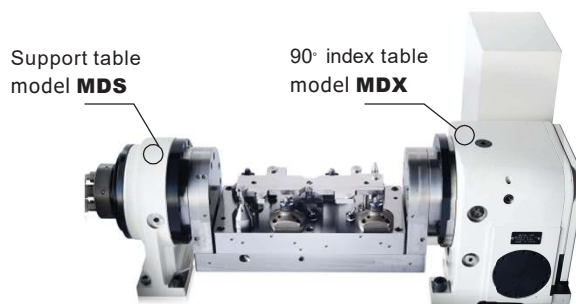

Pal Coupler

model **WVP-2B** □ H

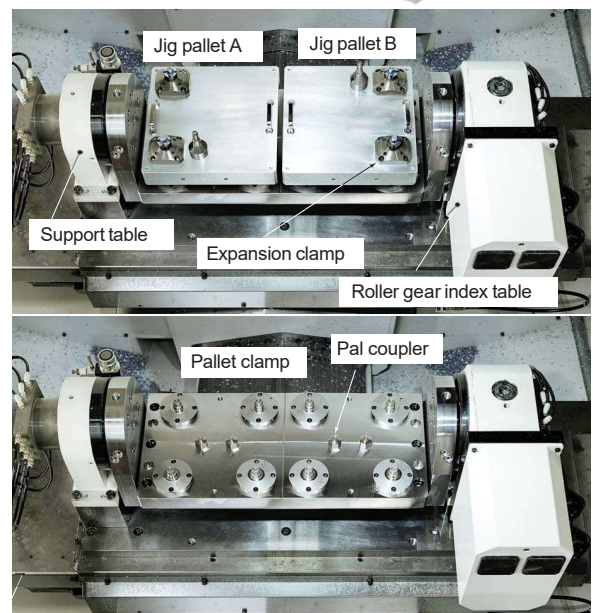

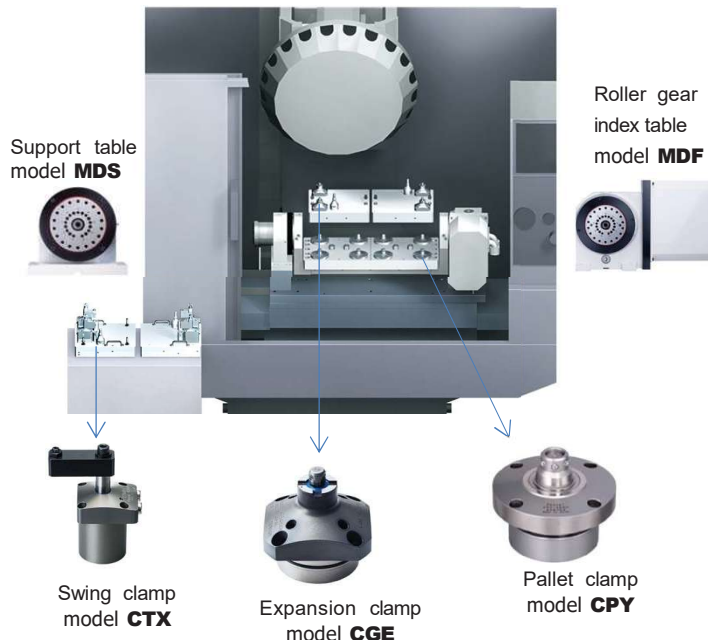

■ INDEX TABLE

90° indexing **0.5 sec.** Index accuracy **±5 arc sec.**

2-axis Roller gear index table

model **MDT**

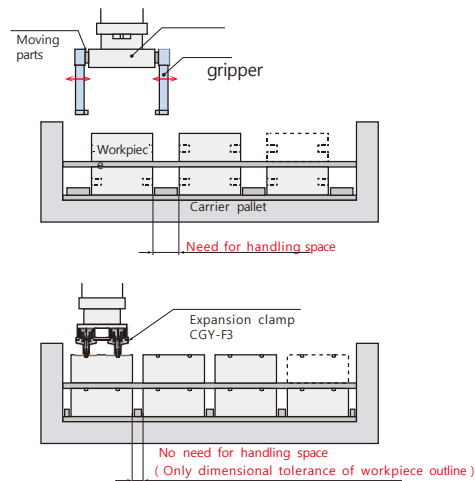

ROBOT

Factory Automation & Industrial Robot Products Improve setup in transport, assembly, and inspection processes. Our lineup includes robot tool changers, robot hands, and positioning equipment.

Expansion Clamp CGY-F3

(Spring clamp / Air unclamp)
Clamping force 0.75 kN Mass 0.97kg

Air Robot tool changer

Master plate
model RHA-M

Tool plate
model RHA-T

Applicable payload
5kg, 10kg, 20kg, 40kg, 80kg 160kg 230kg

Magnet Gripper

Air Pallet gripper

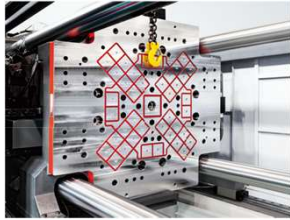

RPG PAT. P.

INJECTION

Mold Change Systems for Injection Molding Machines

We offer clamping systems that shorten changeover time and reduce labor.

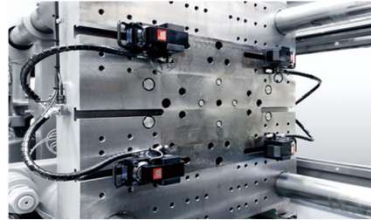

We offer a wide range of products, including air clamps, hydraulic clamps, and magnetic clamps.

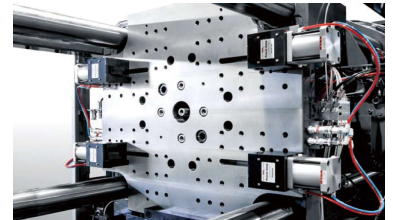

Mag Clamp MGA

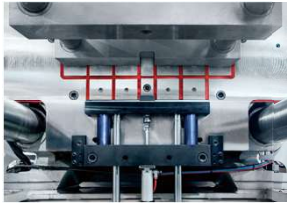

Mag Clamp MRA

Hydraulic Clamp

Air Clamp

Die Setter
(Horizontal & Vertical Device)

Die Leveler
(Leveling Device)

Multi Coupler

Pascal pump
X63

DIECAST

Clamping Systems for Die Casting Machines

Reducing mold change time improves safety, productivity, and work efficiency.

Hydraulic Clamp

C-Plate Magnet

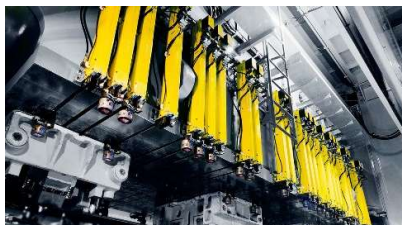

Pascal pump
X63

PRESS STAMPING

Press Machine Die Clamping System

Reduces die change time and improves productivity.

Traveling Clamp

Magnet Clamp

Hydraulic Clamp

Pascal pump
X63

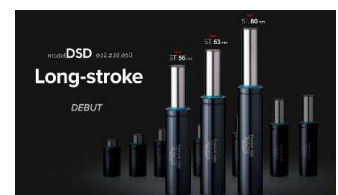

Die Lifter

Die Roller

Pre Roller

Gas Spring

The Pascal mold change system Reduces the risk of industrial accidents, eliminates skilled labor shortages, and shortens non-productive time.

The Mold Rotator is turning heavy objects using a crane or manual labor can be dangerous. Since it can be operated by non-skilled personnel, it improves safety.

Die Changer

Mold Rotator **SMR**

Mold Rotator **SMF-M**

Mold Rotator **SMF-H**

► For rotating a cable drum

Model **SMR-V**

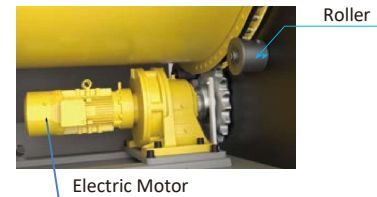

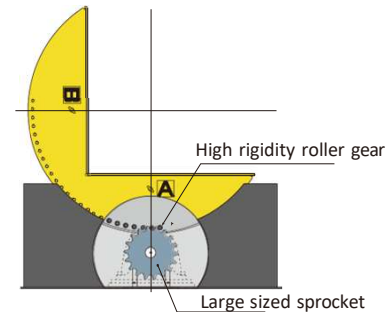

Rotatable weight 3~15 ton

► For rotating a Coil

model **SMR-V**

Rotatable weight 3~15 ton

**Pascal pump
X63**
